

RUGBOARD PANEL

Applications

- Museums
- Cabarets
- Live Events
- Cruise Ships
- Staging
- Rock Concert

Benefits

- Wireless communication
- Wifi
- Easy to program
- Windows XP based
- Rugged PC

Rugged Touch Panel

The Rugboard is a rugged tablet PC running Windows XP Embedded ideal for Medialon Manager Panel® application. It can be used as remote touch screen for a master Medialon Manager application. By sharing network variables in your master Manager application its easy and fast to design a remote application that controls and react with the master application.

Thanks to its built in Wifi interface the Rugboard talks to Master Medialon Manager via wireless Ethernet. For area where Wifi cannot be used, a Lan card can be added in the free Pcmcia slot. The Rugboard include a built in stand.

Specifications

Hardware configuration:

10,4 " SVGA TFT display with 16 bit colourdepth

Touchscreen resistive

CPU NS Geode SC3200,266 MHz

128 MB SDRAM onboard

64 MB Compact Flash integrated

16 bit sound stereo

Speaker and microphone integrated

Wireless LAN integrated

Li-Ion batteries

AC/DC adapter

Interfaces: power, USB, mic-in, speaker-out (Stereo)

PCMCIA-Slot (not occupied)

Operating system:

Windows ® XP Embedded

Communication:

WLAN according to IEEE 802.11b (up to 11 Mbps)

Dimensions/weight:

H x B x T 220 mm x 290 mm x 41 mm

Weight: 1,4 kg without AC/DC adapter

Regulatory:

FCC-B,CE

JIS (corresponds to IP54)

Environmental conditions:

Operating temperature 0 °–40 °C

Humidity 0%–90%

Accessories:

Docking Station

AC/DC adapter RZ-pwr

Battery pack RZ-batt

Carrying-case

GNIC-LAN
